

AFTER IRMA

The Long-Term Recovery Coalition of Broward County

ADDRESSING THE LONG-TERM NEEDS OF THE RESIDENTS OF BROWARD COUNTY AFFECTED BY HURRICANE IRMA.

Although Irma was not a direct hit on Broward County, there was still significant wind and flooding in the area causing damage to many homes and apartments. But it doesn't take physical damage to put people in a bad situation. A couple of missed paychecks can push a struggling family over the edge. The LTRC is here to identify the unmet needs of families and pull together the resources of the coalition to address those needs.

“ I applaud the leaders of the human services community who have created this important coalition. Broward County is committed to ensuring that no one is left behind after a storm or natural disaster. ”

Sandra Veszi Einhorn, Exec. Director of the Coordinating Council of Broward

The mission of the Long-Term Recovery Coalition is to achieve efficient, effective long-term disaster recovery by coordinating and collaboration among its members in order to address the unmet needs of the community.

If you are a resident of Broward County and need assistance, please call 211 and be sure to mention that you were affected by Hurricane Irma

The Long-Term Recovery Coalition of Broward County

The LTRC is a humanitarian association of non-profits, governmental agencies, faith based organizations and businesses with disaster capabilities or resources that respond to a declared disaster locally. It is not a competing or exclusionary organization. It is intended to be a network for organizations active in disaster recovery. Each recovery coalition member will keep its own identity and independence while closely collaborating with other member organizations. It will foster cooperation among its members at all levels and in all phases of disaster.

How you can help!

Does your organization provide direct services to residents that were impacted by a hurricane or other disaster? We would love to have you as a partner of the coalition.

Support the LTRC by participating on one of our committees:

Construction – minor repairs to total rebuilds

Volunteers – community outreach, donation distributions

Social Services – mental health, legal aid, housing

Spiritual Care – family support

Resource Acquisition – donations

Community Outreach – public relations, communications

Are you a community organization that would like the LTRC Director to come speak with your group?

Are you a business that wants to discuss how you can help support the work of the LTRC of Broward County?

Did you know?

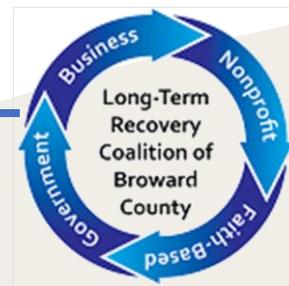

Over 30,000 FEMA cases were opened in Broward County, FL from Hurricane Irma.

11 months after Irma, families are still living in unsafe conditions, in cars, or have become homeless as a result of the storm.

There are still over 4,000 open cases of families with unmet needs in Broward County.

Contact the LTRC of Broward County at
